Art Unit: 1656

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 31, 2010 has been entered.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with J. Ball, Ph.D. on January 21, 2010.

The application has been amended as follows:

In the claims:

1. (currently amended) A powder delivery system ~~containing~~ comprising a chamber storing a haemostatic composition comprising dry gelatin powder having a mean particle size in the range of 30-250  $\mu\text{m}$  and hyaluronic acid, said chamber having at least one discharge opening sized for distributing said composition.

The following is an examiner's statement of reasons for allowance: claims 1-9, 14, 16-26, 32, 50-51, 60 are drawn to a powder delivery system comprising a chamber storing a haemostatic composition comprising dry gelatin powder having a mean particle size in the range

Art Unit: 1656

of 30-250 µm and hyaluronic acid, and a method for promoting haemostasis in a patient in need thereof, said method comprising spraying said haemostatic composition onto an area where bleeding occurs. Applicants' remarks received March 31, 2010 are persuasive to overcome the cited 103(a) references (Ferdman et al., Yamamoto et al., and Silver et al.). Applicants note the Yannas reference (US 4280954; IDS 09.03.08) teach away from using hyaluronic acid in a hemostatic composition. A search of the prior art reveals that the instant invention is novel. Further, the prior art does not suggest the invention as claimed and therefore, said invention is non-obvious.

Claims 1-9, 14, 16-26, 32, 50-51, 60 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marsha M. Tsay whose telephone number is (571)272-2938. The examiner can normally be reached on M-F, 9:00am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Manjunath N. Rao can be reached on 571-272-0939. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
